

A Great Career Begins in Lincoln County.

We're creating more than jobs, we're creating a future. Find out more @ ManufacturingAfuture.com

Lincoln County continues to focus on attracting the industries of the future, supporting our economy with clean, modern operations and facilities that redefine what modern manufacturing is all about.

What makes manufacturing a smart career choice?

- It offers jobseekers the widest range of occupations, mobility and earning potential.
- Average compensation is 19% higher than workers in non-manufacturing industries.
- U.S. manufacturers perform 66% of all private-sector research & development in the nation, driving more innovation than any other sector.
- Partnerships between high schools, community colleges and local manufacturers create more opportunities for more workers.

What makes manufacturing good for Lincoln County?

- Jobs provided by industry are the highest paying in our area.
- Manufacturing and distribution create more jobs than any other category.
- For every one manufacturing job, almost two additional jobs are indirectly created.
- For every \$1 manufacturing dollar spent, another \$1.37 is generated to return to the economy.
- A stronger tax base provides needed community services.
- Corporate investment strengthens our schools, our families and our neighborhoods.
